ARTICLE 3 SCOPE OF ARCHITECT'S BASIC SERVICES

§ 3.1 The Architect's Basic Services consist of those described in this Article 3 and do not include structural, mechanical, plumbing, or electrical engineering services. Services not set forth in this Article 3 are Supplemental or Additional Services.

BASIC SERVICES: Planning Report & Preliminary Estimate of Probable Construction Cost

TASK 1: PROJECT KICK-OFF & GOALS STATEMENT

A kick-off meeting will be held to establish a Goals Statement for the Project that will provide all project participants / stakeholders with a clearly delineated set of objectives for the planning effort. The project team will participate in the participation and design process so as to be goal driven with strong emphasis on recognizing the OHPA and USCBP priorities and project requirements. The Goals Statement will address issues such as schedule/phasing priorities, design intent along with user objectives, image issues, historic neighborhood integration, community engagement (if required), infrastructure, design life of the project, phasing, and budget. The kick-off meeting will be attended by the Zyscovich Project Design Team, including consulting engineers, and key representatives of the OHPA (as outlined in our pre-proposal discussion). With the stakeholders defined for the project, the meeting will address reporting preferences, project management contacts, and confirmation of the approach to developing a budget and schedule, along with planning interrelationships at the port. In addition to the proposed on-site and in-person site visit, virtual participation will be available throughout the process. With the kick-off discussions on-site, a site visit will be held so as to see and familiarize with the overall terminal site.

TASK 2: PROGRAMMING / SCOPE VALIDATION

The team will assess the specific budget planning and OHPA / USCBP criteria in association with each proposed project element and their preliminary siting. Interviews will be held with all stakeholders identified in the goals session to make preliminary criteria assumptions and contrast a profile based on the established standards, needs and planning for the future.

TASK 3: SITE ANALYSIS & PLANNING CONCEPTS

A Constraint and Opportunity Analysis for the Site will be developed to delineate potential options for the requested development.

Options defined in the RFP for (minimum) consideration:

- 1. The square footage of the existing "house" being used by C&BP is less than the require d1300 sq.ft. Can this structure be expanded to meet this square footage requirement?;*
- 2. There is a structure immediately west of the current "house" that is being underutilized. Could this space be converted into satisfactory office space for C&BP?;*
- 3. Is there a third area in the vicinity of the current "house" that can be readapted for C&BP use?"*

Among the factors to be considered will be operational considerations, processing requirements, security, utilities, surface drainage, existing and proposed land use, circulation patterns, long-term and short-term parking locations, existing traffic, general nearby operations, physical features, sun angles, view corridors, and wind / rain / hurricane / storm event factors.

TASK 4: DESIGN CHARRETTE, ALTERNATIVES AND REFINEMENT OF DESIGN: PARAMETRIC CONCEPT & COST DEVELOPMENT

The requirements will be refined as multiple alternatives are developed, including at a minimum the options outlined in the RFP (per above). Options will be reviewed, voted upon and consensus reached. Cost opinions will be developed. A phasing schedule will also be refined and submitted along with a draft funding estimate (in accordance with the standard needed – 1391). The package with option recommendation will be submitted for formal OHPA

Init.

Team and USCBP review. We anticipate a presentation and/or discussion with the Commission may be needed to provide any additional clarification and support.

The end result will be Final Planning Report and recommendation as developed by the entire Project Development Team (PDT), and achieving consensus with the Commission.

§ 3.1.1 The Architect shall manage the Architect's services, research applicable design criteria, attend Project meetings, communicate with members of the Project team, and report progress to the Owner.

§ 3.1.2 The Architect shall coordinate its services with those services provided by the Owner and the Owner's consultants. The Architect shall be entitled to rely on, and shall not be responsible for, the accuracy, completeness, and timeliness of, services and information furnished by the Owner and the Owner's consultants. The Architect shall provide prompt written notice to the Owner if the Architect becomes aware of any error, omission, or inconsistency in such services or information.

§ 3.1.3 As soon as practicable after the date of this Agreement, the Architect shall submit for the Owner's approval a schedule for the performance of the Architect's services. . The schedule shall include allowances for periods of time required for the Owner's review, for the performance of the Owner's consultants, and for approval of submissions by authorities having jurisdiction over the Project. Once approved by the Owner, time limits established by the schedule shall not, except for reasonable cause, be exceeded by the Architect or Owner. .

§ 3.1.4 The Architect shall not be responsible for an Owner's directive or substitution, or for the Owner's acceptance of non-conforming Work, made or given without the Architect's written approval.

§ 5.10 The Owner shall furnish all legal, insurance and accounting services, including auditing services, that may be reasonably necessary at any time for the Project to meet the Owner's needs and interests.

§ 5.11 The Owner shall provide prompt written notice to the Architect if the Owner becomes aware of any fault or defect in the Project, including errors, omissions or inconsistencies in the Architect's Instruments of Service.

§ 5.12 The Owner shall include the Architect in all communications that relate to or affect the Architect's services or professional responsibilities. The Owner shall promptly notify the Architect of the substance of any direct

communications between the Owner and required stakeholder otherwise relating to the Project. Communications by and with the Architect's consultants shall be through the Architect.

(Paragraph Deleted)

§ 5.14 The Owner shall provide the Architect access to the Project site prior to commencement of the Work and shall obligate the Contractor to provide the Architect access to the Work wherever it is in preparation or progress.

§ 5.15 Within 15 days after receipt of a written request from the Architect, the Owner shall furnish the requested information as necessary and relevant for the Architect to evaluate, give notice of, or enforce lien rights.

ARTICLE 6 COST OF THE WORK

§ 6.1 For purposes of this Agreement, the Cost of the Work shall be the total cost to the Owner to construct all elements of the Project designed or specified by the Architect and shall include contractors' general conditions costs, overhead and profit. The Cost of the Work also includes the reasonable value of labor, materials, and equipment, donated to, or otherwise furnished by, the Owner. The Cost of the Work does not include the compensation of the Architect; the costs of the land, rights-of-way, financing, or contingencies for changes in the Work; or other costs that are the responsibility of the Owner.

§ 6.2 The Owner's budget for the Cost of the Work is provided in Initial Information, and shall be adjusted throughout the Project as required under Sections 5.2, and 6.5. Evaluations of the Owner's budget for the Cost of the Work represent the Architect's judgment as a design professional. It is recognized, however, that neither the Architect nor the Owner has control over the cost of labor, materials, or equipment; the Contractor's methods of determining bid prices; or competitive bidding, market, or negotiating conditions. Accordingly, the Architect cannot and does not warrant or represent that bids or negotiated prices will not vary from the Owner's budget for the Cost of the Work, or from any estimate or evaluation, prepared or agreed to by the Architect.

(Paragraphs Deleted)

ARTICLE 7 COPYRIGHTS AND LICENSES

§ 7.1 The Architect and the Owner warrant that in transmitting Instruments of Service, or any other information, the transmitting party is the copyright owner of such information or has permission from the copyright owner to transmit such information for its use on the Project.

§ 7.2 The Architect and the Architect's consultants shall be deemed the authors and owners of their respective Instruments of Service, and shall retain all common law, statutory and other reserved rights, including copyrights. Submission or distribution of Instruments of Service to meet official regulatory requirements or for similar purposes in connection with the Project is not to be construed as publication in derogation of the reserved rights of the Architect and the Architect's consultants.

§ 7.3 The Architect grants to the Owner a nonexclusive license to use the Architect's Instruments of Service solely and exclusively for purposes of constructing, using, maintaining, altering and adding to the Project, provided that the Owner substantially performs its obligations under this Agreement, including prompt payment of all sums due pursuant to Article 9 and Article 11. The Architect shall obtain similar nonexclusive licenses from the Architect's

consultants consistent with this Agreement. The license granted under this section permits the Owner to authorize the Contractor, Subcontractors, Sub-subcontractors, and suppliers, as well as the Owner's consultants and separate contractors, to reproduce applicable portions of the Instruments of Service, subject to any protocols established pursuant to Section 1.3, solely and exclusively for use in performing services for the Project. If the Architect rightfully terminates this Agreement for cause as provided in Section 9.4, the license granted in this Section 7.3 shall terminate.

§ 7.3.1 In the event the Owner uses the Instruments of Service without retaining the authors of the Instruments of Service, the Owner releases the Architect and Architect's consultant(s) from all claims and causes of action arising from such uses. The Owner, to the extent permitted by law, further agrees to indemnify and hold harmless the Architect and its consultants from all costs and expenses, including the cost of defense, related to claims and causes of action asserted by any third person or entity to the extent such costs and expenses arise from the Owner's use of the Instruments of Service under this Section 7.3.1. The terms of this Section 7.3.1 shall not apply if the Owner rightfully terminates this Agreement for cause under Section 9.4.

§ 7.4 Except for the licenses granted in this Article 7, no other license or right shall be deemed granted or implied under this Agreement. The Owner shall not assign, delegate, sublicense, pledge or otherwise transfer any license granted herein to another party without the prior written agreement of the Architect. Any unauthorized use of the Instruments of Service shall be at the Owner's sole risk and without liability to the Architect and the Architect's consultants.

§ 7.5 Except as otherwise stated in Section 7.3, the provisions of this Article 7 shall survive the termination of this Agreement.

ARTICLE 8 CLAIMS AND DISPUTES

§ 8.1 General

§ 8.1.1 The Owner and Architect shall commence all claims and causes of action against the other and arising out of or related to this Agreement, whether in contract, tort, or otherwise, in accordance with the requirements of the binding dispute resolution method selected in this Agreement and within the period specified by applicable law, but in any case not more than 2 years after the date of Completion of the Work. The Owner and Architect waive all claims and causes of action not commenced in accordance with this Section 8.1.1.

§ 8.1.2 To the extent damages are covered by property insurance, the Owner and Architect waive all rights against each other and against the contractors, consultants, agents, and employees of the other for damages, except such rights as they may have to the proceeds of such insurance as set forth in AIA Document A201-2017, General Conditions of the Contract for Construction. The Owner or the Architect, as appropriate, shall require of the contractors, consultants, agents, and employees of any of them, similar waivers in favor of the other parties enumerated herein.

§ 8.1.3 The Architect and Owner waive consequential damages for claims, disputes, or other matters in question, arising out of or relating to this Agreement. This mutual waiver is applicable, without limitation, to all consequential damages due to either party's termination of this Agreement, except as specifically provided in Section 9.7.

§ 8.1.4 To the fullest extent permitted by the law, the Architect's liability to the Owner for all damages arising out of the Architect's and the Architect's Consultants' services due to any cause, including their negligence or breach, shall not exceed the sum of all insurance proceeds available under the Architect's insurance policies covering the Project, including but not limited to those policies listed in this Agreement.

§ 8.2 Mediation

§ 8.2.1 Any claim, dispute or other matter in question arising out of or related to this Agreement shall be subject to mediation as a condition precedent to binding dispute resolution. If such matter relates to or is the subject of a lien arising out of the Architect's services, the Architect may proceed in accordance with applicable law to comply with the lien notice or filing deadlines prior to resolution of the matter by mediation or by binding dispute resolution.

§ 8.2.2 The Owner and Architect shall endeavor to resolve claims, disputes and other matters in question between them by mediation, which, unless the parties mutually agree otherwise, shall be administered by the American

Arbitration Association in accordance with its Construction Industry Mediation Procedures in effect on the date of this Agreement. A request for mediation shall be made in writing, delivered to the other party to this Agreement, and filed with the person or entity administering the mediation. The request may be made concurrently with the filing of a complaint or other appropriate demand for binding dispute resolution but, in such event, mediation shall proceed in advance of binding dispute resolution proceedings, which shall be stayed pending mediation for a period of 60 days from the date of filing, unless stayed for a longer period by agreement of the parties or court order. If an arbitration proceeding is stayed pursuant to this section, the parties may nonetheless proceed to the selection of the arbitrator(s) and agree upon a schedule for later proceedings.

§ 8.2.3 The parties shall share the mediator's fee and any filing fees equally. The mediation shall be held in the place where the Project is located, unless another location is mutually agreed upon. Agreements reached in mediation shall be enforceable as settlement agreements in any court having jurisdiction thereof.

§ 8.2.4 If the parties do not resolve a dispute through mediation pursuant to this Section 8.2, the method of binding dispute resolution shall be the following:

(Check the appropriate box.)

Arbitration pursuant to Section 8.3 of this Agreement

Litigation in a court of competent jurisdiction (non-jury) in the venue where the Project is located.

Other: *(Specify)*

If the Owner and Architect do not select a method of binding dispute resolution, or do not subsequently agree in writing to a binding dispute resolution method other than litigation, the dispute will be resolved in a court of competent jurisdiction.

(Paragraphs Deleted)

ARTICLE 9 TERMINATION OR SUSPENSION

§ 9.1 If the Owner fails to make payments to the Architect in accordance with this Agreement, such failure shall be considered substantial nonperformance and cause for termination or, at the Architect's option, cause for suspension of performance of services under this Agreement. If the Architect elects to suspend services, the Architect shall give seven days' written notice to the Owner before suspending services. In the event of a suspension of services, the Architect shall have no liability to the Owner for delay or damage caused the Owner because of such suspension of services. Before resuming services, the Owner shall pay the Architect all sums due prior to suspension and any expenses incurred in the interruption and resumption of the Architect's services. The Architect's fees for the remaining services and the time schedules shall be equitably adjusted.

§ 9.2 If the Owner suspends the Project, the Architect shall be compensated for services performed prior to notice of such suspension. When the Project is resumed, the Architect shall be compensated for expenses incurred in the interruption and resumption of the Architect's services. The Architect's fees for the remaining services and the time schedules shall be equitably adjusted.

§ 9.3 If the Owner suspends the Project for more than 90 cumulative days for reasons other than the fault of the Architect, the Architect may terminate this Agreement by giving not less than seven days' written notice.

§ 9.4 Either party may terminate this Agreement upon not less than seven days' written notice should the other party fail substantially to perform in accordance with the terms of this Agreement through no fault of the party initiating the termination.

§ 9.5 Either party may terminate this Agreement upon not less than seven days' written notice to the other party for convenience and without cause.

§ 9.6 If either party terminates this Agreement for its convenience pursuant to Section 9.5, or the Architect terminates this Agreement pursuant to Section 9.3, the Owner shall compensate the Architect for services performed prior to termination, Reimbursable Expenses incurred, and costs attributable to termination, including the costs attributable to the Architect's termination of consultant agreements.

§ 9.7 In addition to any amounts paid under Section 9.6, if the Owner terminates this Agreement for its convenience pursuant to Section 9.5, or the Architect terminates this Agreement pursuant to Section 9.3, the Owner shall pay to the Architect the following fees:

(Set forth below the amount of any termination or licensing fee, or the method for determining any termination or licensing fee.)

.1 Termination Fee:

Ten percent (10%) of the remaining (unearned) fee under this agreement

.2 Licensing Fee if the Owner intends to continue using the Architect's Instruments of Service:

Twenty percent (20%) of the remaining (unearned) fee under this agreement

§ 9.8 Except as otherwise expressly provided herein, this Agreement shall terminate one year from the date of Substantial Completion.

§ 9.9 The Owner's rights to use the Architect's Instruments of Service in the event of a termination of this Agreement are set forth in Article 7 and Section 9.7.

ARTICLE 10 MISCELLANEOUS PROVISIONS

§ 10.1 This Agreement shall be governed by the law of the place where the Project is located, excluding that jurisdiction's choice of law rules.

§ 10.2 Terms in this Agreement shall have the same meaning as those in AIA Document A201-2017, General Conditions of the Contract for Construction.

§ 10.3 The Owner and Architect, respectively, bind themselves, their agents, successors, assigns, and legal representatives to this Agreement. Neither the Owner nor the Architect shall assign this Agreement without the written consent of the other, except that the Owner may assign this Agreement to a lender providing financing for the Project if the lender agrees to assume the Owner's rights and obligations under this Agreement, including any payments due to the Architect by the Owner prior to the assignment.

§ 10.4 If the Owner requests the Architect to execute certificates, the proposed language of such certificates shall be submitted to the Architect for review at least 14 days prior to the requested dates of execution. If the Owner requests the Architect to execute consents reasonably required to facilitate assignment to a lender, the Architect shall execute all such consents that are consistent with this Agreement, provided the proposed consent is submitted to the Architect for review at least 14 days prior to execution. The Architect shall not be required to execute certificates or consents that would require knowledge, services, or responsibilities beyond the scope of this Agreement.

§ 10.5 Nothing contained in this Agreement shall create a contractual relationship with, or a cause of action in favor of, a third party against either the Owner or Architect.

§ 10.6 Unless otherwise required in this Agreement, the Architect shall have no responsibility for the discovery, presence, handling, removal or disposal of, or exposure of persons to, hazardous materials or toxic substances in any form at the Project site. To the fullest extent permitted by the law, the Owner shall waive all claims, damages, losses and expenses including reasonable attorney's fees to the extent caused by any existing hazardous waste conditions on site at the time of the Architect's performance of services.

§ 10.7 The Architect shall have the right to include photographic or artistic representations of the design of the Project among the Architect's promotional and professional materials. The Architect shall be given reasonable access to the completed Project to make such representations. However, the Architect's materials shall not include

the Owner's confidential or proprietary information if the Owner has previously advised the Architect in writing of the specific information considered by the Owner to be confidential or proprietary. The Owner shall provide professional credit for the Architect in the Owner's promotional materials for the Project. This Section 10.7 shall survive the termination of this Agreement unless the Owner terminates this Agreement for cause pursuant to Section 9.4.

§ 10.8 If the Architect or Owner receives information specifically designated as "confidential" or "business proprietary," the receiving party shall keep such information strictly confidential and shall not disclose it to any other person except as set forth in Section 10.8.1. This Section 10.8 shall survive the termination of this Agreement.

§ 10.8.1 The receiving party may disclose "confidential" or "business proprietary" information after 7 days' notice to the other party, when required by law, arbitrator's order, or court order, including a subpoena or other form of compulsory legal process issued by a court or governmental entity, or to the extent such information is reasonably necessary for the receiving party to defend itself in any dispute. The receiving party may also disclose such information to its employees, consultants, or contractors in order to perform services or work solely and exclusively for the Project, provided those employees, consultants and contractors are subject to the restrictions on the disclosure and use of such information as set forth in this Section 10.8.

§ 10.9 The invalidity of any provision of the Agreement shall not invalidate the Agreement or its remaining provisions. If it is determined that any provision of the Agreement violates any law, or is otherwise invalid or unenforceable, then that provision shall be revised to the extent necessary to make that provision legal and enforceable. In such case the Agreement shall be construed, to the fullest extent permitted by law, to give effect to the parties' intentions and purposes in executing the Agreement.

TASK 1: PROJECT KICK-OFF & GOALS STATEMENT

...

A kick-off meeting will be held to establish a Goals Statement for the Project that will provide all project participants / stakeholders with a clearly delineated set of objectives for the planning effort. The project team will participate in the participation and design process so as to be goal driven with strong emphasis on recognizing the OHPA and USCBP priorities and project requirements. The Goals Statement will address issues such as schedule/phasing priorities, design intent along with user objectives, image issues, historic neighborhood integration, community engagement (if required), infrastructure, design life of the project, phasing, and budget.

...

The kick-off meeting will be attended by the Zyscovich Project Design Team, including consulting engineers, and key representatives of the OHPA (as outlined in our pre-proposal discussion). With the stakeholders defined for the project, the meeting will address reporting preferences, project management contacts, and confirmation of the approach to developing a budget and schedule, along with planning interrelationships at the port. In addition to the proposed on-site and in-person site visit, virtual participation will be available throughout the process. With the kick-off discussions on-site, a site visit will be held so as to see and familiarize with the overall terminal site.

...

TASK 2: PROGRAMMING / SCOPE VALIDATION

...

The team will assess the specific budget planning and OHPA / USCBP criteria in association with each proposed project element and their preliminary siting. Interviews will be held with all stakeholders identified in the goals session to make preliminary criteria assumptions and contrast a profile based on the established standards, needs and planning for the future.

...

TASK 3: SITE ANALYSIS & PLANNING CONCEPTS

...

A Constraint and Opportunity Analysis for the Site will be developed to delineate potential options for the requested development.

...

Options defined in the RFP for (minimum) consideration:

...

“1. The square footage of the existing “house” being used by C&BP is less than the require d1300 sq.ft. Can this structure be expanded to meet this square footage requirement?;

...

2. There is a structure immediately west of the current “house” that is being underutilized. Could this space be converted into satisfactory office space for C&BP?;

...

3. Is there a third area in the vicinity of the current “house” that can be readapted for C&BP use?”

...

Among the factors to be considered will be operational considerations, processing requirements, security, utilities, surface drainage, existing and proposed land use, circulation patterns, long-term and short-term parking locations, existing traffic, general nearby operations, physical features, sun angles, view corridors, and wind / rain / hurricane / storm event factors.

...

TASK 4: DESIGN CHARRETTE, ALTERNATIVES AND REFINEMENT OF DESIGN: PARAMETRIC CONCEPT & COST DEVELOPMENT

PAGE 8

The requirements will be refined as multiple alternatives are developed, including at a minimum the options outlined in the RFP (per above). Options will be reviewed, voted upon and consensus reached. Cost opinions will be developed. A phasing schedule will also be refined and submitted along with a draft funding estimate (in accordance with the standard needed – 1391). The package with option recommendation will be submitted for formal OHPA Team and USCBP review. We anticipate a presentation and/or discussion with the Commission may be needed to provide any additional clarification and support.

...

The end result will be Final Planning Report and recommendation as developed by the entire Project Development Team (PDT), and achieving consensus with the Commission.

~~§ 3.6.4.2 The Architect shall review and approve, or take other appropriate action upon, the Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. Review of such submittals is not for the purpose of determining the accuracy and completeness of other information such as dimensions, quantities, and installation or performance of equipment or systems, which are the Contractor's responsibility. The Architect's review shall not constitute approval of safety precautions or construction means, methods, techniques, sequences or procedures. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.~~

...

~~§ 3.6.4.3 If the Contract Documents specifically require the Contractor to provide professional design services or certifications by a design professional related to systems, materials, or equipment, the Architect shall specify the appropriate performance and design criteria that such services must satisfy. The Architect shall review and take appropriate action on Shop Drawings and other submittals related to the Work designed or certified by the Contractor's design professional, provided the submittals bear such professional's seal and signature when submitted to the Architect. The Architect's review shall be for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Architect shall be entitled to rely upon, and shall not be responsible for, the adequacy and accuracy of the services, certifications, and approvals performed or provided by such design professionals.~~

If appropriate, the Architect shall prepare and issue supplemental Drawings and Specifications in response to the requests for information.~~

...

~~§ 3.6.4.5~~ The Architect shall maintain a record of submittals and copies of submittals supplied by the Contractor in accordance with the requirements of the Contract Documents.

...

~~§ 3.6.5~~ Changes in the Work

...

~~§ 3.6.5.1~~ The Architect may order minor changes in the Work that are consistent with the intent of the Contract Documents and do not involve an adjustment in the Contract Sum or an extension of the Contract Time. Subject to Section 4.2, the Architect shall prepare Change Orders and Construction Change Directives for the Owner's approval and execution in accordance with the Contract Documents.

...

~~§ 3.6.5.2~~ The Architect shall maintain records relative to changes in the Work.

...

...

~~§ 3.6.6.2 The Architect's inspections shall be conducted with the Owner to check conformance of the Work with the requirements of the Contract Documents and to verify the accuracy and completeness of the list submitted by the Contractor of Work to be completed or corrected.~~

...

~~§ 3.6.6.3 When Substantial Completion has been achieved, the Architect shall inform the Owner about the balance of the Contract Sum remaining to be paid the Contractor, including the amount to be retained from the Contract Sum, if any, for final completion or correction of the Work.~~

...

~~§ 3.6.6.4 The Architect shall forward to the Owner the following information received from the Contractor: (1) consent of surety or sureties, if any, to reduction in or partial release of retainage or the making of final payment; (2) affidavits, receipts, releases and waivers of liens, or bonds indemnifying the Owner against liens; and (3) any other documentation required of the Contractor under the Contract Documents.~~

...

~~§ 3.6.6.5 Upon request of the Owner, and prior to the expiration of one year from the date of Substantial Completion, the Architect shall, without additional compensation, conduct a meeting with the Owner to review the facility operations and performance.~~

§ 4.2.1 Upon recognizing the need to perform the following Additional Services, the Architect shall notify the Owner with reasonable promptness and explain the facts and circumstances giving rise to the need. The Architect shall not proceed to provide the following Additional Services until the Architect receives the Owner's ~~written~~ authorization:

PAGE 12

- .1 Services necessitated by a change in the Initial Information, previous instructions or approvals given by the Owner, or a material change in the Project including size, quality, complexity, the Owner's schedule or budget for Cost of the Work, ~~or procurement or delivery method;~~

...

- ~~.6 Preparation of design and documentation for alternate bid or proposal requests proposed by the Owner;~~

...

..

...

- ~~.9 Evaluation of the qualifications of entities providing bids or proposals;~~

...

.

...

- .1 ~~Reviewing a Contractor's submittal out of sequence from the submittal schedule approved by the Architect;~~

...

~~.2 Responding to the Contractor's requests for information that are not prepared in accordance with the Contract Documents or where such information is available to the Contractor from a careful study and comparison of the Contract Documents, field conditions, other Owner-provided information, Contractor-prepared coordination drawings, or prior Project correspondence or documentation;~~

...

~~.3 Preparing Change Orders and Construction Change Directives that require evaluation of Contractor's proposals and supporting data, or the preparation or revision of Instruments of Service;~~

...

~~.5 Evaluating substitutions proposed by the Owner or Contractor and making subsequent revisions to Instruments of Service resulting therefrom.~~

...

~~§ 4.2.3 The Architect shall provide Construction Phase Services exceeding the limits set forth below as Additional Services. When the limits below are reached, the Architect shall notify the Owner:~~

...

~~.1 () reviews of each Shop Drawing, Product Data item, sample and similar submittals of the Contractor _____~~

...

~~.2 () visits to the site by the Architect during construction _____~~

...

~~.3 () inspections for any portion of the Work to determine whether such portion of the Work is substantially complete in accordance with the requirements of the Contract Documents _____~~

...

~~.4 () inspections for any portion of the Work to determine final completion. _____~~

...

~~§ 4.2.4 Except for services required under Section 3.6.6.5 and those services that do not exceed the limits set forth in Section 4.2.3, Construction Phase Services provided more than 60 days after (1) the date of Substantial Completion of the Work or (2) the initial date of Substantial Completion identified in the agreement between the Owner and Contractor, whichever is earlier, shall be compensated as Additional Services to the extent the Architect incurs additional cost in providing those Construction Phase Services.~~

...

~~§ 4.2.5 If the services covered by this Agreement have not been completed within six (6) months of the date of this Agreement, through no fault of the Architect, extension of the Architect's services beyond that time shall be compensated as Additional Services.~~

PAGE 13

~~§ 5.7 If the Owner identified a Sustainable Objective in Article 1, the Owner shall fulfill its responsibilities as required in AIA Document E204™ 2017, Sustainable Projects Exhibit, attached to this Agreement.~~

PAGE 14

~~§ 5.12 The Owner shall include the Architect in all communications with the Contractor that relate to or affect the Architect's services or professional responsibilities. The Owner shall promptly notify the Architect of the substance of any direct communications between the Owner and the Contractor required stakeholder otherwise relating to the Project. Communications by and with the Architect's consultants shall be through the Architect.~~

...

~~§ 5.13 Before executing the Contract for Construction, the Owner shall coordinate the Architect's duties and responsibilities set forth in the Contract for Construction with the Architect's services set forth in this Agreement. The Owner shall provide the Architect a copy of the executed agreement between the Owner and Contractor, including the General Conditions of the Contract for Construction.~~

...

~~§ 6.2 The Owner's budget for the Cost of the Work is provided in Initial Information, and shall be adjusted throughout the Project as required under Sections 5.2, 6.4 and 6.5. Evaluations of the Owner's budget for the Cost of the Work, and the preliminary estimate of the Cost of the Work and updated estimates of the Cost of the Work, prepared by the Architect, represent the Architect's judgment as a design professional. It is recognized, however, that neither the Architect nor the Owner has control over the cost of labor, materials, or equipment; the Contractor's methods of determining bid prices; or competitive bidding, market, or negotiating conditions. Accordingly, the Architect cannot and does not warrant or represent that bids or negotiated prices will not vary from the Owner's budget for the Cost of the Work, or from any estimate of the Cost of the Work, or evaluation, prepared or agreed to by the Architect.~~

...

~~§ 6.3 In preparing estimates of the Cost of Work, the Architect shall be permitted to include contingencies for design, bidding, and price escalation; to determine what materials, equipment, component systems, and types of construction are to be included in the Contract Documents; to recommend reasonable adjustments in the program and scope of the Project; and to include design alternates as may be necessary to adjust the estimated Cost of the Work to meet the Owner's budget. The Architect's estimate of the Cost of the Work shall be based on current area, volume or similar conceptual estimating techniques. If the Owner requires a detailed estimate of the Cost of the Work, the Architect shall provide such an estimate, if identified as the Architect's responsibility in Section 4.1.1, as a Supplemental Service.~~

...

~~§ 6.4 If, through no fault of the Architect, the Procurement Phase has not commenced within 90 days after the Architect submits the Construction Documents to the Owner, the Owner's budget for the Cost of the Work shall be adjusted to reflect changes in the general level of prices in the applicable construction market.~~

...

~~§ 6.5~~ If at any time the Architect's estimate of the Cost of the Work exceeds the Owner's budget for the Cost of the Work, the Architect shall make appropriate recommendations to the Owner to adjust the Project's size, quality, or budget for the Cost of the Work, and the Owner shall cooperate with the Architect in making such adjustments.

...

~~§ 6.6~~ If the Owner's budget for the Cost of the Work at the conclusion of the Construction Documents Phase Services is exceeded by the lowest bona fide bid or negotiated proposal, the Owner shall

...

~~.1— give written approval of an increase in the budget for the Cost of the Work;~~

...

~~.2— authorize rebidding or renegotiating of the Project within a reasonable time;~~

...

~~.3— terminate in accordance with Section 9.5;~~

...

~~.4— in consultation with the Architect, revise the Project program, scope, or quality as required to reduce the Cost of the Work; or,~~

...

~~.5— implement any other mutually acceptable alternative.~~

...

~~§ 6.7~~ If the Owner chooses to proceed under Section 6.6.4, the Architect shall modify the Construction Documents as necessary to comply with the Owner's budget for the Cost of the Work at the conclusion of the Construction Documents Phase Services, or the budget as adjusted under Section 6.6.1. If the Owner requires the Architect to modify the Construction Documents because the lowest bona fide bid or negotiated proposal exceeds the Owner's budget for the Cost of the Work due to market conditions the Architect could not reasonably anticipate, the Owner shall compensate the Architect for the modifications as an Additional Service pursuant to Section 11.3; otherwise the Architect's services for modifying the Construction Documents shall be without additional compensation. In any event, the Architect's modification of the Construction Documents shall be the limit of the Architect's responsibility under this Article 6.

...

~~§ 7.2~~ The Architect and the Architect's consultants shall be deemed the authors and owners of their respective Instruments of Service, ~~including the Drawings and Specifications,~~ and shall retain all common law, statutory and other reserved rights, including copyrights.
